

ANNOUNCING!!

AAPC CPC® ONLINE TRAINING AT TXCC

Texas Career Center now offers the premier online education opportunity for aspiring CPCs! We are merging our excellent AAPC approved CPC-I instructors with the AAPC's Professional Medical Coding Curriculum (PMCC) to create the optimal learning experience for achieving the CPC® credential.

The Advanced Coding class at Texas Career Center includes all the AAPC CPC® online course training material, PLUS MORE!

FAST FACTS & BENEFITS:

- 80 hours of comprehensive interactive online course material
- 3 hours of integrated course content for a timed mid-term exam consisting of 75 questions; designed to evaluate your knowledge and test-taking skills for a timed environment
- 5 hours of integrated course content for a timed final exam consisting of 150 questions taken directly from the AAPC proprietary test bank; this final exam mimics the CPC exam and is the best preparation for accuracy and timing to pass the CPC exam
- PLUS!!! 20 hours of virtual real-time classroom with an AAPC-approved CPC-I instructor. Each week, the student will be invited to participate in a 60-minute instructor led training session complete with PowerPoints, hands-on class exercises and an additional 15-minute session for questions/answers from the students. The virtual classroom sessions will cover the most complex areas of study in the PMCC curriculum to aid the student in comprehension and application of these theories.
- Includes the PMCC textbook bundle (two books)
- Includes the complete coding book bundle (CPT, HCPCS and ICD-10-CM)
- Includes a free CPC Prep and Review 90-minute webinar to provide the tricks and tips of CPC test-taking, explain how to prepare and highlight your coding books for optimal reference during the exam, practice the "rule-out" methodology of question approach, and identify the most-missed coding concepts on the CPC exam.
- Provides access to the PMCC online content for 16-weeks with the option to extend on a month-by-month basis if needed.
- TXCC special discount on AAPC student membership fee
- Discount on the AAPC fee for taking the CPC exam with one free retake (\$300 instead of \$380)
- AAPC timed online 50-question practice exam

- Ability to communicate directly with an instructor via email with questions. Emailed questions will receive a 24-hour response Monday-Friday. Questions received after 3:00 p.m. on Friday will be answered by Tuesday at 3:00 p.m.
- 6 months of free coding Q&A advice post-training to help the newly credentialed coder as they enter the workforce. TXCC students may submit questions through a devoted email and receive this support from the time they complete training for a period of six months. Emails will be answered by an AAPC approved coding instructor.

COURSE CONTENT:

- The Business of Medicine
- Review of Anatomy and Medical Terminology
- Overview of ICD-10-CM
- Applying the ICD-10-CM Guidelines
- Accurate ICD-10-CM Coding

- Final Exam (timed 150-questions)

PAYMENT OPTIONS:

Texas Career Center offers a flexible payment plan to allow students freedom to begin their career training as soon as possible. The cost of the class is \$1,890 and includes all textbooks and coding books which are ordered at the time of enrollment. Students who elect to finance their online training must provide a credit card on file for three auto payments. A down-payment of \$750 is required at the time of enrollment and the remainder of the balance is paid in three payments.

<u>Course</u>	<u>Price</u>	<u>SC 10%</u>	<u>Total</u>	<u>Down Payment</u>	<u>3-Monthly Payments</u>
PMCC Course	\$1,890	\$189	\$2,079	\$750	\$443
